

Other Implementation Tools

To locate materials related to Wood Building Products Surface Coating Operations, OAQPS contracted with EC/R to conduct a website search of existing available tools in September 2001. After this table of available tools, there is a [Website List](#) which lists the websites we explored. Several of the websites provided capability to search for documents matching user-specified key words.

Tool	Tool Location	Comments
Wood Panel Industry Inspection Guidance Document	Office of Enforcement and Compliance Assurance	Multimedia guidance document created by the Multi-Media Enforcement Division that is designed to assist EPA, State, and local inspectors conduct multi-statute inspections at wood panel manufacturing facilities.
Sector Notebook - Lumber and Wood Products Industry	Office of Enforcement and Compliance Assurance	General interest guide (notebook) that provides information regarding lumber and wood products manufacturing processes and pollution issues. Among others, covers facilities engaged in manufacturing finished articles made entirely or mainly of wood or related materials such as reconstituted wood panel products.
Lumber and Wood Products Industry site	Office of Enforcement and Compliance Assurance	Website provides links to compliance assistance documents and other related links
Summary - Paints, Varnishes, Lacquers, Enamels, and Allied Products Manufacturing Statutory and Regulatory Summaries	Office of Enforcement and Compliance Assurance	Identifies and clarifies industry- specific regulatory information necessary to conduct a self-assessment.
EPCRA Section 313 Reporting Guidance for Presswood and Laminated Wood Products Industry	Toxics Release Inventory	Assists covered facilities in SIC code 24 to comply with reporting requirements of sections 313 of EPCRA and 6607 of PPA.
Paints and Coatings Resource Center	Paints and Coatings Resource Center	Compliance Assistance Center website providing regulatory compliance and pollution prevention information to organic coating facilities, industry vendors and suppliers, and others.

Draft V2
Proposed Rule [FR 67, 42400, June 21, 2002]

Tool	Tool Location	Comments
Making Pollution Prevention Work for You: Opportunities for Wood Coaters	Call Abby Swaine at (617) 918-1841 or Email	A video offered by EPA New England which discusses and demonstrates the coatings, equipment, techniques, and waste management practices that can help wood coating businesses save money, improve worker health and satisfaction, reduce liability, and protect the environment.
High Solids Topcoats & HVLP Spray Guns: Ethan Allen	Call (617) 367-8558 or Email	A fact sheet which describes Ethan Allen's efforts to use new coatings and new equipment to reduce air emissions and operating costs.
Ultraviolet Radiation Cured Coatings & Aqueous-Based Coatings	Call (617) 367-8558 or Email	A fact sheet which describes the Hussey Seating Company's efforts to use new coatings to reduce air emissions and operating costs.
Coatings Care7 Community Responsibility Implementation Guide - Draft	National Paint and Coatings Association	Available for technical review (NPCA Member access only)
A Guide for Reducing Air Pollution from Spray Coating Operations	Maricopa County Environmental Services Air Quality Program 2406 S. 24 th St., Suite E-111 Phoenix, AZ 85034 (606) 506-6138	An 8-page booklet explaining how VOC's enter and harm the environment through coatings and how various processes make VOC's more reactive. It points out common failures in regulated equipment that reduce efficiency in preventing pollution. It also describes alternative coating systems and other opportunities for pollution prevention.
A Primer on Waterborne Coatings	State of Georgia Department of Natural Resources	A publication from the State of Georgia Pollution Prevention Assistance Division (P ² AD) on switching from solvent-based coatings to waterborne coatings to reduce costs and VOC emissions.
Powder Coating	State of Georgia Department of Natural Resources	A publication from the State of Georgia Pollution Prevention Assistance Division (P ² AD) on switching from a wet spray painting system to a powder coating system to reduce cost and VOC emissions.
Pollution Prevention Tips for Spray Painters	State of Georgia Department of Natural Resources	A publication from the State of Georgia Pollution Prevention Assistance Division (P ² AD) on reducing waste and costs at companies which apply paint using spray guns.

Draft V2
Proposed Rule [FR 67, 42400, June 21, 2002]

Tool	Tool Location	Comments
Guide to the Iowa Permit by Rule for Small Spraying Operations	Iowa Waste Reduction Center 75 Biology Research Complex University of Northern Iowa Cedar Falls, IA 50614-0185 (800) 422-3109 or (319) 273-2079	A step-by-step guide to completing Iowa's One or Three Gallon Permit by Rule. The permit by rule is a "simpler" permitting option available to small surface coating operations in Iowa.
Environmentally Conscious Painting	Kansas State University Engineering Extension Programs 133 Ward Hall Manhattan, KS 66506-2508 (913) 532-6026	A guide to better spray painting practices, with information on different coating types.
Surface Coating Operation with Emissions of Less than 25 Tons/Year	New Jersey Dept. of Environmental Protection Office of Permit Information and Assistance Small Business Assistance Program 401 E. State St. CN 423 Trenton, NJ 08625 (609) 292-3600	Surface coating operations level 2- New Source Review reference and technical document targeted to small businesses.
Surface Coating Processes	Environmental Ombudsman Unit Empire State Development Division of Small Business Attn: Antonio Rodriguez 633 3 rd Ave., 32 nd Floor New York, NY 10017 (800) 782-8369	Four 1-page fact sheets that address the problems in New York concerning the VOC content of surface coatings. There is one fact sheet for each of the four designated regulated areas in the state. Each one tells which processes are regulated as well as compliance options, compliance dates, recordkeeping requirements, and permit requirements.
Summary of Title 6 NYCRR Part 228 Surface Coating Processes	Environmental Ombudsman Unit Empire State Development Division of Small Business Attn: Antonio Rodriguez 633 3 rd Ave., 32 nd Floor New York, NY 10017 (800) 782-8369	A 4-page summary that gives general information about surface coating processes subject to state rules and regulations. This report gives information about compliance, control requirements, reports, recordkeeping, sampling, analysis, prohibition of sale, and the handling, storage, and disposal of VOC's.
Compliance Checklists: Wood Products Manufacture	State of Texas Natural Resource Conservation Center	A checklist designed to help the wood products manufacturing industry determine if they are exempt from the various statutes and regulations that apply to their industry.
